Pending Tasks

Three branches: **what Claude does, what you do, and money.** Click a branch to open it. Tick boxes to pick what to view together, copy into an email, or print. The money branch stays shut until you type **0000**.

`Owner checklist · v3 · 2026-10-13 · CURRENT · prepared by ☁️ Claude (Cloud)`

11	8	🔒
Claude does	**You do**	**Money**
Starts on its own unless marked “needs your yes”.	One small action each. Number 1 first.	Protected zone. Opens with 0000.

The one thing that matters most. Your desktop helper, RAMBO, has been silent since October 10. OCR, read-aloud, the 10 tasks moved to RAMBO, and the PC side of the panel all wait on it. **Your task 1** wakes it up.

What Claude does

11 tasks · in order — 11 tasks

- [ ] 1 **Fix the OCR runner before it is installed** CLAUDE STARTS
  It would redo finished files. Upgrade it to the newest OCR standard.
- [ ] 2 **Pull text from typed PDFs in Google Drive** NEEDS YOUR YES
  Restarts part of OCR from the cloud. Scanned pages still need the PC.
- [ ] 3 **Send RAMBO one short order for its 10 tasks** CLAUDE STARTS
  So they are not lost while the desktop is silent.
- [ ] 4 **Panel: Document Library page** CLAUDE STARTS
  Your 209 library documents, opening from Google Drive instead of the G: drive.
- [ ] 5 **Panel: hand-off packet builder with a Copy button** CLAUDE STARTS
  Pick a task, it picks the cheapest helper, one button copies the instructions.

6 **Panel: Menu finish** CLAUDE STARTS
Coming-soon boxes, word explanations (TRK, OPH), text size A− A+, high contrast.

7 **Job queue: connect a worker that picks up your sent jobs** WAITS ON RAMBO
Today jobs wait in line; nothing picks them up yet.

8 **OneDrive duplicate check** CLAUDE STARTS
About 4,000 possible duplicate scans. A report only; nothing is deleted.

9 **Hashtag index for every job file** CLAUDE STARTS
The tag index the search box reads. Writing tags on the PC waits on RAMBO.

10 **Miami-Dade access letter, final version** CLAUDE STARTS
Get a real tracking number and verify the contacts. Nothing is sent without your “send”.

11 **Keep watching every hour** CLAUDE STARTS
Relay any result from the PC to you in plain words.

What you do
8 tasks · start with number 1

8 tasks

1 **On your PC, open the Claude Code window and click “Allow” if it asks** ONE CLICK
Leave it open. This wakes RAMBO and unlocks most of Claude’s list.

2 **Say “yes” or “no” to Claude pulling text from typed PDFs** ONE WORD
One word in the chat.

3 **Try read-aloud today with no install** ONE CLICK
In Edge, highlight a reply, right-click, “Read aloud selection”. The one-key version installs when RAMBO wakes.

4 **Send yourself Copilot’s panel design** ONE CLICK
In Copilot open “Continue Previous Conversation”, press Ctrl+A then Ctrl+C, and email it to yourself with the subject COPILOT PANEL DESIGN.

- [ ] 5 **Tell Claude your second Microsoft email address** ONE WORD
  So it can go in the Emails menu. Or say “none”.
- [ ] 6 **Printer scan CCO_000001: PDF or picture?** ONE WORD
  One word: “PDF” or “picture”.
- [ ] 7 **Say “send” on the Miami-Dade access letter** ONE WORD
  Claude shows you the final version first. Nothing goes out before that.
- [ ] 8 **OneDrive duplicates: yes per batch** LATER
  After the report. Nothing is deleted without your yes.

Nothing on this page sends, files, moves or deletes anything. Ticks are for picking what to view or share; they are not saved.
