Folio 30-5032-086-0020 · county reply: no jacket / records-only · TRK-2026-1535

Due-Diligence Dossier — no county jacket on file; built from public records

Verdict: an **honest gaps report, not a completed DD file**. County replied no jacket / records-only for this folio, and the DD is substantially unstated — owner, land use, year built, value, sale history, permits and CU status all still to be pulled. **\$18.75 paid 2026-08-06** (microfilm batch); capsule titled by address only.

Overall risk rating: UNRATED — insufficient data; DD not yet run

Executive summary

The property. 18020 SW 103 AVE, Miami FL 33157 — folio **30-5032-086-0020**. Job party on file: **Alec Valdes** (due diligence). **\$18.75 paid 2026-08-06** as part of the microfilm batch. The capsule exists but is **titled by address only**, with no client name.

Verdict

This is an honest gaps report, not a completed due-diligence file. The county reply for this folio was “**no jacket**” / **records-only**, and the DD itself is **substantially unstarted**: owner, land use, year built, value, sale history, permits and CU status have **not yet been pulled** in the reviewed records. No unpermitted-structure determination has been made.

Risk cannot be rated yet — there is not enough retrieved data to support a rating. What follows records exactly what is known, and names the single action that closes each gap.

County reply for this folio: no jacket / records-only. The property facts above are limited to what the reviewed records actually contain; nothing has been inferred.

Additions, alterations & permits

Not retrieved in the reviewed records. The DD sweep for this parcel has not been run to completion, so no permit history has been pulled and no unpermitted-structure determination exists.

As with the other Alec parcels, any municipal permit or Certificate of Use would be held by the issuing city, not surfaced in a county jacket — and the county replied **records-only / no jacket** for this folio. A completed county / City permit sweep is required before anything can be stated here.

Causes of concern

1. **Address-only folder = labeling failure.** The capsule is named by address with no “Alec Valdes,” so a name search walks right past it. This is one of the folders that made Alec look like several clients instead of one. Renaming to include the client name is the recommended Tier-2 fix (RED — desktop / Jorge executes; cloud stages only).
2. **DD substantially unstated.** County land use, value, sale history and permits still to be pulled. No unpermitted-structure determination yet.
3. **No county jacket.** County replied records-only / no jacket for folio 30-5032-086-0020, so the file must be built from public-record queries rather than a jacket pull.

Data gaps & not verified

Each gap names the owner action that would close it.

1. **Owner, land use, year built, value, sale history not pulled. Closes with:** a completed county / City DD sweep for folio 30-5032-086-0020.
2. **Permits and CU status not pulled. Closes with:** the same DD sweep plus a City permit / CU lookup for the issuing jurisdiction.
3. **No unpermitted-structure determination. Closes with:** the retrieved land-use / building data compared against the permit record.
4. **Address-only capsule name (RED, owner-gated). Closes with:** Jorge approving the rename to add “Alec Valdes” to the folder.
5. **County data not independently re-verified here.** This assembly did not re-query the county.
Closes with: a re-pull before any client-facing delivery.
