

331 Tamiami Canal Road

Miami, FL · City of Miami

Folio 01-4002-003-1200 · Owner ALEJANDRO LUIS COMPAIN · TRK-2026-1612

Due-Diligence Dossier — no county jacket on file; built from public records

Verdict: a structurally clean older single-family record (no code case, no unsafe structure, no overlays) with two open items that carry weight: a **FEMA flood-zone conflict** (card Zone X vs FEMA 2021 Zone AE, BFE 7 ft NAVD88) and a **possible-unpermitted-additions gap** (three build ages 1947/1958/2009, one permit on record, City permit data readable only from 2014). City of Miami parcel; **no county jacket exists to pull.**

Overall risk rating: LOW-TO-MODERATE — contingent on flood zone & the additions

Executive summary

The property. 331 Tamiami Canal Rd, Miami — folio **01-4002-003-1200** (13-digit 0140020031200). This is a **City of Miami** parcel (folio prefix 01), zoning **T3-R** under Miami 21, NET office Flagami, commission district 4. Owner of record is **ALEJANDRO LUIS COMPAIN** — a natural person, no Sunbiz entity, no homestead exemption. Job party on file: Alec Valdes / Avis Builders (capsule literally named “(ALEC VALDES)”; directive DIR-0038.

Verdict

Structurally this is a **clean older single-family record**: no county code case, no unsafe structures, no DERM record, no historic / landmark / archaeological / environmental overlay, no 40-year recertification. The capsule was built to CAPSULE-TEMPLATE-01 (six subfolders, 50 documents) and passed the deterministic verifier **9/9, exit 0**.

Two open items keep this from being a no-issue file. First, a **FEMA flood-zone conflict** — the county and the City card both say Zone X, but the FEMA 2021 layer says **Zone AE** (coastal floodplain, BFE 7 ft NAVD88). That is worth money and is not smoothed over. Second, a **possible-unpermitted-additions gap** — three build ages (1947 / 1958 / 2009) but only one permit on record, and readable City permit data does not begin until 2014.

Because this is City of Miami, permits and CU live with the City; **no county tax jacket exists to pull**. The free county tax jacket has also not yet been ordered.

Property facts

Address : 331 Tamiami Canal Rd, Miami
Folio : 01-4002-003-1200 (13-digit 0140020031200; City of Miami)
Zoning : T3-R (Miami 21) · NET Flagami · commission district 4
Owner : ALEJANDRO LUIS COMPAIN (natural person; no Sunbiz; no homestead)
Job party : Alec Valdes / Avis Builders (capsule "(ALEC VALDES)")
Directive : DIR-0038

Build ages / size (quoted)

Original house	1947	1,341 sf heated
Addition	1958	216 sf heated
Addition, unheated	2009	308 sf

Assessed / market / sale (quoted)

Last recorded sale	2013-07-23	\$100	(a paper transfer)
2026 market	\$539,921		
2026 assessed	\$520,260		
Comparables	9 qualified arms-length 2023-2026, \$455,000 to \$649,000		

Capsule built to CAPSULE-TEMPLATE-01: six subfolders, 50 documents. Deterministic verifier 9/9 PASS, exit 0.

Additions, alterations & permits

Only one permit was found anywhere (quoted):

BD19007362001BR001 · roofing · FINAL · issued 2019-05-20
MG EXCELLENT SERVICES CORP

The three additions vs one permit

The parcel shows **three build ages — 1947, 1958 and 2009** — but only the 2019 roofing permit is on record. Readable City of Miami permit data **begins in 2014**, so the 1958 and 2009 additions **predate the record**. The honest reading is: **“Not proven unpermitted. Not proven permitted.”**

Municipal permits are **held by the City of Miami, not the county**, so they do not appear in any county engine and there is no county jacket to pull. Settling the additions needs the City’s own permit file, then microfilm for the pre-2014 work.

Causes of concern

1. **FEMA flood-zone conflict — worth money, not smoothed over.** County lookup and the City property card both say **Zone X**; the FEMA 2021 layer at this point says **Zone AE**, coastal floodplain, **BFE 7 ft NAVD88**. Flagged and NOT resolved.
2. **Possible-unpermitted-additions gap.** Three build ages (1947 / 1958 / 2009), only one permit on record (2019 roofing). Readable City permit data begins 2014, so the 1958 and 2009 additions predate the record — not proven unpermitted, not proven permitted.
3. **Two “answer-shaped” county traps caught.** (1) County returned “ADDRESS NOT FOUND” — that is the county not indexing City of Miami addresses, NOT a clean “no permits” record. (2) The Property Appraiser `GetPropertySearchByAddress` returned the WRONG building (111 NW 1 ST, the county government centre); `GetAddress` returned the correct parcel. Trusting the first answer would have researched the entire job against the wrong property.
4. **\$100 paper transfer (2013-07-23).** A nominal-consideration deed; not an arms-length price.

Causes of concern (cont.)

5. **Portal defect that blocks sharing (REPORTED, NOT PATCHED).** `Build-Job-Portal.ps1` wrote all 50 hrefs as `file:///G:/...` local paths while reporting “drive links: 50” — so the portal cannot be shared with anyone. Locked pending Jorge’s passcode.
6. **Blocked on owner spend decision: MICROFILM-PAY-01** (YES-ALL vs ASK-PER-ITEM). Nothing ordered, nothing paid. This is a charter-dated money item (microfilm retrieval before **2026-09-05**). The free tax jacket is also not yet ordered.

Clean items (recorded honestly)

No county code case, no unsafe structures, no DERM record, no historic / landmark / archaeological / environmental overlay, and no 40-year recertification surfaced against this folio. Stated plainly so its absence is on the record.

Data gaps & not verified

Each gap names the owner action that would close it.

1. **Permit completeness unresolved.** The 1958 / 2009 additions predate readable (2014+) City permit data — not proven permitted or unpermitted. **Closes with:** the City's own permit file plus microfilm.
2. **FEMA flood zone unresolved.** Card Zone X vs FEMA 2021 Zone AE (BFE 7 ft NAVD88). **Closes with:** a FEMA determination / elevation certificate.
3. **Tax status, liens and CU open.** Tax Collector returned 403; liens / mortgages sit behind a Clerk captcha; the county CU search is retired for 2012+. **Closes with:** Chrome-based Tax Collector access, a Clerk records pull, and a City CU lookup.
4. **Microfilm and the free tax jacket not ordered.** **Closes with:** Jorge's MICROFILM-PAY-01 decision (YES-ALL or ASK-PER-ITEM) and the free tax-jacket order — a charter-dated item (before **2026-09-05**).
5. **County data not independently re-verified here.** Quotes come from the desktop proof runs mirrored into the repo. **Closes with:** a re-pull before any client-facing delivery.
