

7823 NW 5th Avenue

Miami, FL 33150 · City of Miami

Folio 01-3112-016-0030 · Owner ASF HOMES LLC · TRK-2026-1292 / TRK-2026-1531

Due-Diligence Dossier — no county jacket on file; built from public records

Verdict: a vacant-coded parcel showing the **signature of an unpermitted structure** — coded VACANT RESIDENTIAL / living area 0 / year built 9999, yet the same record lists 6 bedrooms and 4 bathrooms, and it sold for \$320,000 against a county value of \$222,523. City of Miami parcel, so permits and CU live with the City; **no county jacket exists to pull.**

Overall risk rating: MODERATE-TO-HIGH — contingent on the City permit file

Executive summary

The property. 7823 NW 5th Ave, Miami FL 33150 — folio **01-3112-016-0030**. The folio prefix **01** is the City of Miami municipality code, so this parcel sits inside the City of Miami, not the unincorporated county. Owner of record is **ASF HOMES LLC**; the job party on file is **Alec Valdes / Avis Builders**.

Verdict

This file carries the **signature of an unpermitted structure on a parcel the tax roll still shows as vacant**. The county carries the parcel as **VACANT RESIDENTIAL**, living area 0, year built 9999 — while the **same record lists 6 bedrooms and 4 bathrooms**, and the parcel **sold for \$320,000 against a county value of \$222,523**. A vacant-coded parcel that both lists bedrooms and sells well above its assessed value is exactly the pattern CU Inspections work looks for.

Because 7823 NW 5 AVE is **City of Miami**, any Certificate of Use and any building permit live with the City and never appear in either county engine. **There is no county tax jacket to pull for this parcel**. The determination cannot be closed from county records alone; it needs the City of Miami permit file.

Note on job records: this one parcel is filed twice — as **TRK-2026-1292** and as **TRK-2026-1531** — proven the same folio, same parcel. See the facts page.

Property facts

Address : 7823 NW 5th Ave, Miami FL 33150
 Folio : 01-3112-016-0030 (City of Miami; prefix 01)
 Owner : ASF HOMES LLC
 Job party : Alec Valdes / Avis Builders
 Land use : VACANT RESIDENTIAL (living area 0, year built 9999)
 Record also : 6 bedrooms / 4 bathrooms on the SAME county record
 Last sale : \$320,000
 County value: \$222,523

Two tracking numbers, one parcel

This parcel is filed as **both** TRK-2026-1292 and TRK-2026-1531. Three independent proofs establish they are the same parcel, including the county address index returning exactly one row for both address spellings. One was filed as “Miami-Dade,” the other as “City of Miami” — the split-jurisdiction labeling is what made one parcel look like two jobs.

- **TRK-2026-1292** — has a capsule folder.
- **TRK-2026-1531** — the ALEC MICROFILM BATCH parent. **\$56.25 paid 2026-08-06**. Has **no capsule folder** — it exists only as a registry row and a loose jacket `.eml`. A subordinate document is seen in the wild: `TRK-2026-1531.002_City-of-Miami_2026-08-07_7823 NW 5 AV INV. 1326704` (the `.002` is a subordinate-document number, not a page number).

Merging the two records is a RED action and waits for Jorge; any merge must preserve the \$56.25 paid order and the subordinate document.

Additions, alterations & permits

No permits were retrieved online for this parcel. That is a limitation of where the records live, not evidence that no work was done.

Where the permits actually are

7823 NW 5 AVE is **City of Miami**. Municipal building permits and Certificates of Use are **held by the City of Miami, not the county**, and never appear in either county engine. On top of that, the county's public Certificate-of-Use search was **retired for 2012-and-later records**, so even a county CU cannot be confirmed online for the modern period.

What the record implies is missing

The parcel is coded VACANT RESIDENTIAL / living area 0 / year built 9999 yet lists 6 bedrooms and 4 bathrooms. If a structure stands, there should be a City building permit for it. **The absence of that permit in the county record is the open item** — it must be checked against the City of Miami's own permit file, then microfilm if older, before the structure can be called permitted or unpermitted.

Causes of concern

1. **Unpermitted-structure signature (Jorge's exact line of work).** Tax roll shows VACANT RESIDENTIAL / living area 0 / year built 9999, yet the same record lists 6 bedrooms and 4 bathrooms, and the parcel sold for \$320,000 against a county value of \$222,523. That combination is the signature of an unpermitted structure on a parcel the tax roll still shows as vacant.
2. **Duplicate job record.** Filed twice — TRK-2026-1292 AND TRK-2026-1531 — same folio, same parcel, same address. Merging them is RED and waits for Jorge.
3. **Owner is ASF HOMES LLC**, not Alec / Avis directly. The client relationship is the builder role, not title ownership; confirm the connection before asserting ownership in any client-facing report.
4. **CU cannot be confirmed online.** As a City of Miami parcel, any Certificate of Use lives with the City and never appears in either county engine.

Data gaps & not verified

Each gap names the owner action that would close it.

1. **No county tax jacket on file.** City of Miami parcel — permits and CU sit with the City. **Closes with:** a pull of the City of Miami permit file for folio 01-3112-016-0030 (then microfilm for anything pre-digital).
2. **Permitting of the standing structure not established.** The record is vacant-coded but lists 6 bd / 4 ba. **Closes with:** the City permit file confirming or ruling out a building permit for the structure.
3. **Certificate of Use not confirmable online.** County modern CU search retired (2012+); municipal CU held by City. **Closes with:** a City CU lookup or a public-records request.
4. **1292 = 1531 merge is unresolved (RED, owner-gated).** **Closes with:** Jorge's decision to merge into one capsule keyed on folio 01-3112-016-0030, preserving the \$56.25 paid microfilm order and the .002 subordinate document.
5. **County data not independently re-verified here.** County quotes come from the desktop proof runs (TRK-2026-9078 / the ALEC sweep) mirrored into the repo; this assembly did not re-query the county. **Closes with:** a re-pull before any client-facing delivery.
