

City of Miami Reference Folio

Folio 01-4102-098-0001 · no street address

Master / reference folio · LEGAL: 1658 NW 1 STREET CONDO · TRK-2026-1289

Due-Diligence Dossier — no county jacket on file; built from public records

Verdict: a **master / reference folio** for a condominium declaration (1658 NW 1 STREET CONDO) — no owner, no assessment, no sale history by design. DD run against it returns empty from every source and **looks researched when nothing was examined**. Real DD must run against the individual unit folios beneath this parent. City microfilm ordered (X2026148681), still in flight.

Overall risk rating: NOT ASSESSABLE at the master folio — run DD against unit folios

Executive summary

The record. TRK-2026-1289 is folio **01-4102-098-0001** — a City of Miami folio (prefix 01). It has **no street address**: it is a folio, not a parcel with a building.

Verdict

This is a **master / reference folio** — the parent record for a condominium declaration (**1658 NW 1 STREET CONDO**), not an individual unit. A reference folio carries **no owner, no assessment and no sale history by design**. Due diligence run against this folio returns empty from every source, so the job **looks researched when nothing was actually examined**.

Due diligence must be run against the individual unit folios beneath this parent — not against the master. The City microfilm needed to enumerate those units has been ordered (order **X2026148681**, placed 2026-08-10) and is still in flight.

Risk cannot be rated at the master-folio level. There is nothing here to rate until the unit folios are pulled.

Property facts

County record, quoted literally:

STATUS : RO Reference
DOR : 0000 / REFERENCE FOLIO
LEGAL : 1658 NW 1 STREET CONDO
OWNER : (none — reference folios carry no owner)

Folio : 01-4102-098-0001 (City of Miami; prefix 01)
Address : none — this is a folio, not a street address
Job party : Alec Valdes
Land use : n/a at master level
Year built : n/a
Units : master declaration record (units sit in child folios)
Values : none by design
Sales : none by design

Capsule: has a capsule folder. City microfilm ordered — order **X2026148681**, placed 2026-08-10. That is an order process, not a lookup; delivery is a placeholder until it lands.

Additions, alterations & permits

Not applicable at the master-folio level. A condominium reference folio records the declaration, not a physical structure, so no permits attach to it.

Where permits would be found

Any permit history belongs to the **individual unit folios** beneath 01-4102-098-0001, and — because this is a **City of Miami** folio — those permits are **held by the City of Miami, not the county**. There is no county tax jacket to pull at this folio. Permit review can only begin once the unit folios are enumerated from the City microfilm order (X2026148681).

Causes of concern

1. **Master-vs-unit folio trap.** 01-4102-098-0001 is the PARENT record for a condominium declaration (1658 NW 1 STREET CONDO), not an individual unit. It is unrelated to 7823 NW 5 Ave despite also being an Alec job.
2. **Silent-failure risk.** Due diligence run against this master folio returns empty from every source, so the job LOOKS researched when nothing was actually examined. DD must be run against the individual unit folios beneath this parent.
3. **Jurisdiction.** City of Miami — thinner public access than the county; partial data expected. City microfilm was ordered (X2026148681); delivery is a placeholder until it lands.

Data gaps & not verified

Each gap names the owner action that would close it.

1. **No unit-level research exists.** DD against the master folio returns empty by design. **Closes with:** the individual unit folios beneath 01-4102-098-0001 — which needs the City microfilm delivery **X2026148681** (still in flight).
2. **No owner / value / sale data.** A reference folio carries none. **Closes with:** pulling each child unit folio once enumerated.
3. **No permit or CU review possible yet.** City of Miami jurisdiction; permits and CU held by the City. **Closes with:** a City permit-file and CU lookup per unit folio.
4. **County data not independently re-verified here.** Quotes come from the desktop proof runs (TRK-2026-9078) mirrored into the repo. **Closes with:** a re-pull before any client-facing delivery.
